

# Salem Health Surgical Specialty Clinic - Vascular Surgery

## Aortic disease

Our Salem Health vascular surgeons provide innovative and comprehensive vascular care (minimally invasive), open and hybrid surgical repair for patients with a full spectrum of aortic disease.

## We offer the latest:

- Fenestrated endovascular aneurysm repair
- EVAR (endovascular aneurysm repair)
- Iliac branch grafts
- TEVAR (thoracic endovascular aneurysm repair)
- Complex open aortic surgery

## Peripheral arterial disease

Our providers utilize the latest in technology for both endovascular as well as traditional open surgical therapies including:

- Angioplasty
- Stenting
- Atherectomy
- Endarterectomy
- Surgical bypass

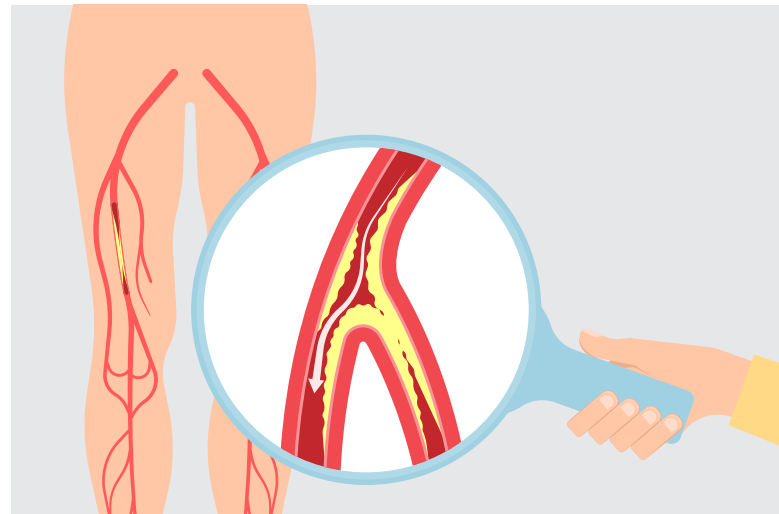

## Carotid artery disease

Salem Health provides therapy for carotid artery disease using multiple treatment options including:

- Carotid endarterectomy
- Transfemoral carotid artery stenting
- TCAR procedure (TransCarotid Artery Revascularization) minimally invasive carotid-based stenting with flow reversal.

Salem Health also offers carotid artery duplex screening and surveillance in our IAC accredited vascular laboratory.

## Hemodialysis access

This multidisciplinary program is dedicated to providing quality care to patients with:

- Chronic kidney disease
- Dialysis patients needing vascular access

Our collective goal is to improve access, expedite care and minimize delays to patients with chronic renal failure and/or end-stage renal disease.

We also strive to decrease hospitalizations and the use of temporary catheters — thus, improving the quality of life for patients living with kidney disease.

## Venous disease

Salem Health provides a comprehensive range of diagnostic, surgical and endovascular interventions to treat patients with:

- Venous insufficiency
- Varicose veins
- Other venous disorders

### Benefits for your patients:

- Increases treatment options
- Patient-centered and patient-driven care with multiple modalities of treatment
- Improves access to care
- Decreases wait times for treatment with designated vein solution clinic

## Other arterial conditions

Additional conditions our providers treat include:

- Mesenteric arterial disease
- Median arcuate ligament syndrome
- Renal arterial disease
- Thoracic outlet syndrome
- Nutcracker syndrome
- Pelvic congestion syndrome
- Vasculitis

# Meet our vascular surgeons and support staff

## **Timothy Hodges, MD – medical director**

Dr. Hodges attended medical school at the University of Alabama School of Medicine. He completed a General Surgery residency and a vascular research fellowship at the University of Washington in Seattle. He then completed a Vascular Surgery fellowship at Dartmouth-Hitchcock Medical Center. He was an Associate Professor of Surgery at the University of Missouri-Kansas City before moving to a group practice in St. Joseph, MO. He has been in practice since 1997. He spends his free time with his wife and dogs. His hobbies include fly-fishing, fly-tying, travel and watching bad movies.

## **Sheena Harris, MD**

Dr. Harris grew up in a small town near Dallas, Texas. She earned her undergraduate degree at Tufts University and a Master's degree in Nutrition at Columbia University. She attended Texas A&M University for medical school, and she went on to complete her general surgery and vascular surgery training at Oregon Health and Science University. Dr. Harris enjoys backcountry skiing, reading science fiction, and spending time with her husband and their dog.

## **Mark Jones, MD, FACS**

Dr. Mark Jones attended medical school at the University of Utah School of Medicine. He completed his Internship and General Surgery residency at Oregon Health and Sciences University. He completed a fellowship in Vascular Surgery also at Oregon Health and Sciences University. He has been in private practice in Grants Pass with the Grants Pass Surgical Associates where he worked with general surgery residents as part of the rural surgery program affiliated with OHSU. In 2019, he was awarded the John G Hunter Distinguished Alumnus Award for the OHSU Department of Surgery. In his free time, he enjoys rafting with his wife, running, woodworking, metalworking and restoring vintage cars.

## **Darby Jalbert, PA-C**

Darby Jalbert grew up in a small town near Boulder, Colorado. Prior to becoming a physician assistant, she worked as a medical scribe in an emergency department in Oklahoma City. She then attended a physician assistant program through Midwestern University in Illinois from 2017 to 2019. She has spent the last two years practicing as a physician assistant in vascular surgery through Advanced Vascular Therapy in Salem. She is excited to continue working in vascular surgery and has now joined the Salem Health Medical Clinics Vascular Surgery practice. In her free time, Darby enjoys spending time with her friends, family, and cats, as well as hiking, working out, and traveling.

## **Matthew Jobson, NP**

Matthew Jobson was born and raised in Flint, Michigan. Upon graduating from high school, he enlisted in the U.S. Marine Corps where he served at Camp Pendleton, California, and was honorably discharged in 2005. Using his G.I. Bill, he attended community college in Flint where he earned an associate's degree in nursing. While working as a registered nurse in cardiac/vascular care, critical care, and surgery, he attended Grand Valley State University in Allendale, Michigan, to earn a Bachelor of Science in Nursing. After several years of experience as a bedside nurse, Matthew attended graduate school at the University of Michigan in Ann Arbor, earning a Master of Science in Nursing. He is a board certified Adult-Gerontology Acute Care Nurse Practitioner and comes to Salem Hospital from Prefontaine Cardiovascular Group in Coos Bay. In his free time, he enjoys hiking with his wife and children, visiting Oregon's state parks, traveling, and reading.

## **Morgan Marin, PA-C**

Morgan Marin grew up in Charlotte, North Carolina, and earned her undergraduate degree from the University of North Carolina at Chapel Hill. She gained patient care experience in urology, cardiothoracic surgery, and pediatrics before moving to Oregon. She attended the OHSU physician assistant program from 2018 to 2020. She then worked as a physician assistant in vascular surgery in the Salem area before joining the Salem Health Medical Clinics Vascular Surgery team. In her free time, Morgan enjoys baking, reading, and getting outside to hike or swim.
