

What can you do to stay independent?

Many people make financial plans for retirement, but not everyone plans for other changes that may come with age. This includes changes in your mobility—your ability to get around.

It's not easy to talk about, but as we get older, physical changes can make it harder to get around and do things we want or need to do—like driving, shopping, or doing household chores.

There may be a time when you still need to get around, but can no longer drive.

You might not have mobility problems now, but you could in the future. You may even know others who already do—perhaps a parent, relative, friend, or neighbor. While it may not be possible to prevent all of these changes, there are actions you and your loved ones can take today, and as you age, to help keep you safe and independent tomorrow.

Make a plan today. Stay independent tomorrow.

MySelf | A plan to stay independent

Staying healthy and managing chronic conditions help maintain your mobility.

To start building your plan, complete the checklist below.

☐ Get a physical checkup each year.	☐ Get a medical eye exam each year.
Some health issues may increase your	Eye problems can increase your risk of
risk of falling (such as leg weakness	falling or being in a car crash.
and balance problems).	Last Exam Date:
Last Exam Date:	Next Exam Date:
Next Exam Date:	

☐ Review all your medicines with a doctor or pharmacist.

Certain medicines can have side effects that can change your ability to drive, walk, or get around safely. To learn more, go to:

https://go.usa.gov/xPADs

MyMobility Tip

Good eyesight is about more than 20/20 vision. For example, you need to see well in the dark to drive safely at night.

Get a medical eye exam each year and address any issues.

☐ Follow a regular activity program to increase your strength and balance.

Strength and balance activities, done at least 3 times a week, can reduce your risk of falling. Other activities, like walking, are good for you, but don't help prevent falls. Visit the National Institute on Aging's website for suggestions:

www.go4life.nia.nih.gov/exercises

Strength	Activity	Balance	Activity
Exercise	Start Date	Exercise	Start Date
Chair stand	Next Monday	Tai Chi	Next Monday

MyHome A plan to stay safe at home

To continue your plan, schedule a time to go through the following home safety checklist to help prevent falls.

Check the FLOORS in each room and reduce tripping hazards:

- ☐ Keep objects off the floor.
- ☐ Remove or tape down rugs.
- ☐ Coil or tape cords and wires next to the wall and out of the way.

Check the KITCHEN:

- ☐ Put often-used items within easy reach (about waist level).
- ☐ For items not within easy reach, always use a step stool and never use a chair.

Check the BEDROOMS:

- ☐ Use bright light bulbs.
- ☐ Place lamps close to the bed where they are within reach.
- □ Put in night-lights to be able to see a path in the dark. For areas that don't have electrical outlets, consider battery-operated lights.

Check inside and outside STAIRS and STEPS:

- ☐ Check for loose or uneven steps. Repair if needed.
- ☐ Make sure carpet is firmly attached to every step, or remove carpet and attach non-slip rubber treads.
- ☐ Check for loose or broken handrails. Repair if needed.
- ☐ Consider installing handrails on both sides of the stairs.
- ☐ Use bright overhead lighting at the top and bottom of the stairs.
- ☐ Consider putting light switches at both the top and bottom of the stairs.

Check the BATHROOMS:

- ☐ Put non-slip rubber mats or self-stick strips on the floor of the tub or shower.
- ☐ Consider installing grab bars for support getting in or out of the tub or shower, and up from the toilet.

MyMobility Tip

Falls are more likely when wearing inappropriate footwear, such as flip flops that don't cover the heel.

Wear safe shoes that fit well, have a firm heel to provide stability, and have a textured sole to prevent slipping.

MyNeighborhood | A plan to stay mobile in my community

Finish your plan by filling out the table below.

Think of all the places you go and how you get there.

Then, consider how you would get to these same places if you couldn't use your current way.

- ☐ Find transportation options in your ZIP code:
 - Rides in Sight 1-855-607-4337 www.ridesinsight.org

Ride share services can help keep you connected to family and friends. Staying social helps maintain quality of life as you age.

Where do I go now? (Such as doctor, grocery store, or physical activity class)	How do I get there now? (Such as drive, get a ride, or use public transportation)	How will I get there in the future? (Such as bus, rideshare, or ride with a friend)
Meet friends for lunch	Drive myself	Get a ride from a friend

☐ Consider a driver refresher course.

Some insurers give a discount on your car insurance for taking a course:

- AARP (888) 687-2277 or www.aarp.org
- AAA (800) 222-4357 or www.aaa.com

MyMobility Tip 🤻

Practice safe behaviors, such as always wearing a seatbelt, as a driver or a passenger.
