

How to use the MyChart app for the COVID Vaccination Clinic

Part 1 of 2 – Let us know you're coming

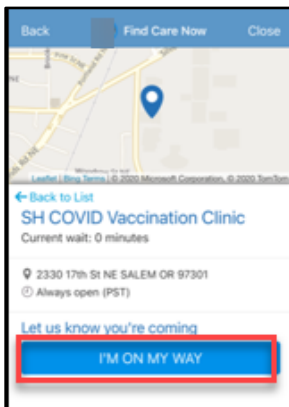

Click the blue **Menu** button on the MyChart home screen and then click **COVID Immunization Clinic** from the dropdown menu.

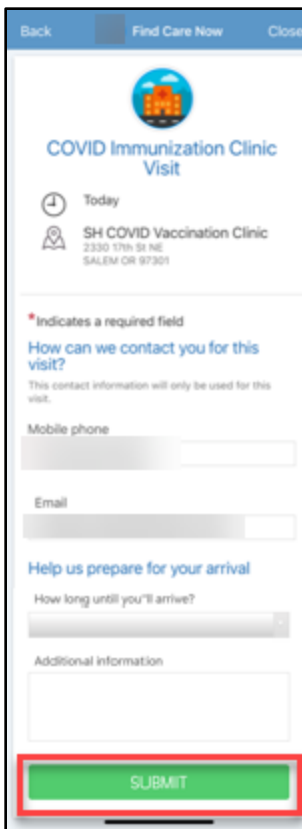

If you don't have Location Services enabled on your device, select **OK** when you get the first popup. Then click on **Select a search area** and type **97301** and click the **magnifying glass**. When the map opens, click on the **SH COVID Vaccination Clinic**.

Click the **blue I'M ON MY WAY** button.

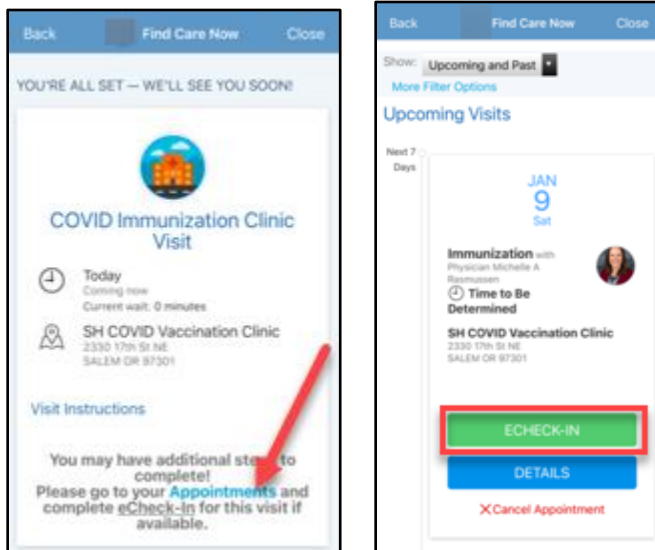

Enter any missing information and click the **green SUBMIT** button.

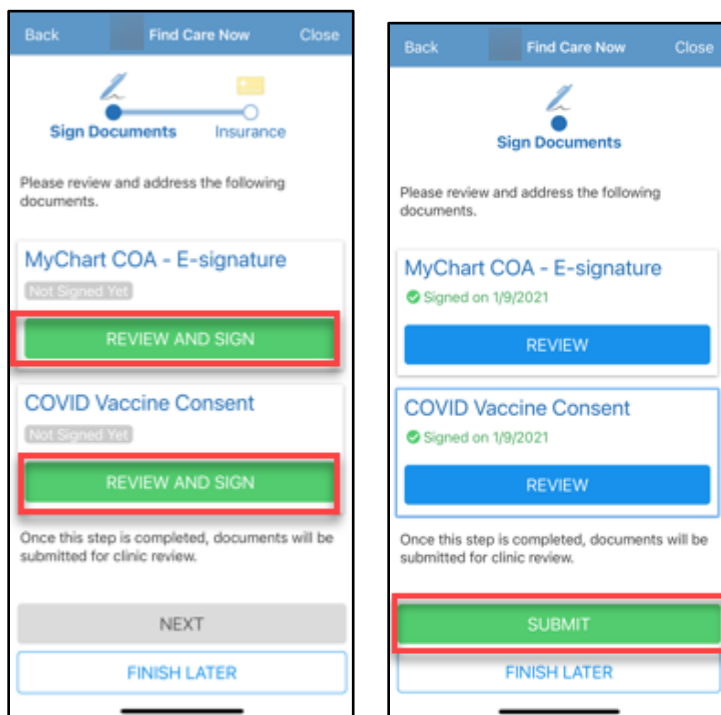

Continue to next page...

Part 2 of 2 – Digitally review and sign the required documents

Click the **blue Appointments** link in the body of the Visit Instructions to go to your appointment details. Then click the **green ECHECK-IN** button to begin the check-in process.

Review and sign both documents on the first screen by tapping the **green REVIEW AND SIGN** button for each document and following instructions to fill and sign. When both forms are completed and signed, the signed date will appear and the **NEXT** button at the bottom of the screen will turn to a **green SUBMIT** button.

Verify and complete all remaining required information. When you are done, you will get a pop-up indicating eCheck-In is complete.
