

PURPOSE

The purpose of this conference is to inform nurses about strategies for clinical inquiry that can be applied to improve outcomes.

OBJECTIVES

1. Describe how clinical inquiry using either qualitative or quantitative research methods can advance professional practice.
2. Identify ethical issues associated with clinical inquiry.
3. Identify resources associated with clinical inquiry.

Consultation

Individual or small group consultation will be available to attendees who have specific questions related to their own clinical inquiry project. These sessions will be held during the concurrent sessions in the afternoon and must be arranged prior to the conference. To request a consultation please complete the consultation fields on the registration form.
