

# Oregon Nursing Research & Quality Consortium Annual Conference

*Innovation in the PNW: Advancing Nursing with Evidence and Technology*  
April 13, 2026

The purpose of this conference is to engage clinical staff in technology-enhanced, evidence-based practice principles and real-world examples that advance nursing care and improve patient outcomes. By the end of the conference, attendees will be able to:

1. Identify one evidence-based strategy that can enhance clinical decision-making.
2. Demonstrate how to use at least one technology tool to support nursing practice.
3. Describe one way innovation can improve patient outcomes across diverse care settings.
