

Salem Health PGY1 Residency Fact Sheet

Length: 1 year

Application Date: December 31, 2020

Application Method: PhORCAS

Letters of Reference Forms within PhORCAS: Three

- Special Requirement for Letters: recommenders to fill out comments on at least **five** of the thirteen sections in the letter for reference form
- Interview Requirement: **10 minute** (5 slide) PowerPoint presentation introducing yourself and a "Clinical Pearl"

Start date: June 28th, 2021

Approximate Stipend: \$51,000 per year

Benefits: Medical, dental, vision, life, short-term disability insurance, PTO & sick leave (152 hours + 6 paid holidays), 401-k available, meeting fees for a residency conference (Northwestern States Residency Conference) and one professional meeting (ASHP Midyear).

Great Opportunity: Salem Hospital has the busiest Emergency Department from Vancouver, BC to Los Angeles, award-winning cardiovascular and orthopedic service lines and multi-disciplinary rounding on multiple care units and has been recognized as a Magnet[®] hospital.

Residency Requirements:

- Be a good listener (and reflective about constructive criticism)
- Be an effective questioner (especially of preceptors to enhance your learning)
- Be articulate (able to "sell" your recommendations to providers)

If you give us your best for a full year, we will give you a residency experience that will prepare you for patient care and advancement in any healthcare setting.

Need to know: you must pass a background check with a drug screen between Match & hiring date. You have Oregon Intern license before starting and an Oregon Pharmacist license by 10/1.

Director of Pharmacy: Cory Rahn, PharmD

Residency Program Director: Matthew Tanner, Pharm.D., BCPS

Showcase: Virtual

Booth #: TBD

NMS ID: 213913

Salem Hospital PGY1 Residency Learning Experiences

Rotational Experiences are generally a month in length. Some rotations may be longer or shorter based on resident schedule / preceptor availability. Most experiences may be repeated as an elective but no more than 12 weeks can be spent in a single level of care (i.e. Critical Care, Internal Medicine).

Core (Required) Rotations

- Antimicrobial Stewardship / Infectious Disease I
- CVCU
- Emergency Department I
- Adult Internal Medicine I & II
- Adult Critical Care I & II
- IV Room & Operating Room
- Neonatology / Pediatrics / Obstetrics

Elective Experiences

- Emergency Department II
- Oncology
- Teaching Certificate

Longitudinal Experiences are longer in duration and may span a few months or last the entire year.

- Citywide Residency Conference
- Residency Project
- Committees I: Clinical Pharmacy Council
- Pharmacy Informatics
- Pharmacy Operations
- Pharmacy Staffing (every other weekend, opportunity for decentralized shifts after January)
- Committees II: Pharmacy & Therapeutics Committee and Medication Safety Subcommittee
- Pharmacy Student & Hospital Staff Education

Additional Details:

Citywide Residency Conference: *Bimonthly meetings with participation requirement, intended to round out a residency experience and provide networking opportunities with Portland-area residents & RPDs.*

Residency Project: *Each resident completes a research project during the residency year. Projects are selected by the resident and approved by the program director early in the year. Residents develop a time line, receive IRB approval and submit an abstract (in early February) for presentation of the project at the Northwestern States Conference for Residents and Preceptors in May. Posters for ASHP Midyear are required.*

Oregon Pharmacy Teaching Certificate (OPTC) program: *didactic teaching & precepting course offered by OSU & Pacific University with teaching experience gained at a local college / university.*

Evaluation and Assessment:

In addition to being evaluated by their preceptors, residents have the opportunity to be an active participant in their learning with self-evaluations and evaluation of each preceptor and learning experience. Evaluations occur at the end of every rotation, and at least quarterly for longitudinal rotations.

Planned Rotation Schedule, 2020 to 2021 Academic Year

	July	Hospital / Pharmacy New Hire Orientation
Rotation 1	August	Adult Internal Medicine I
Rotation 2	September	Adult Internal Medicine II
Rotation 3	October	Adult Critical Care I
Rotation 4	November	CVCU
